- Marwari

Projects

E-voting using Block-chain Technology
- Developed a blockchain based E-voting to provide a secure platform for casting vote to ensure transparency and confidentiality. Making blockchain based ecosystem for elimination of middleman, providing data security, and improving speed of governance service

Google Virtual Assistant using AI

Developed a Cloned Google Assistant Client for Desktop using Node.js and Javascript to give you conversational interactions between you and google.

Technology Stack : Javascript, node.js, npm

Supported OS : Windows, Linux, MAC

Personal Appraisal

- Commitment
- Team player
- Innovator
- Quick learner

Extra Curricular Activities

- Always been active in sports. Represented my school, college and played state level football and still continue to do so, also play badminton and swim occasionally.
- Volunteered for blood donation camp conducted by NSS.
- Participated in "drawing out of waste competition" where I secured a 1st rank in national level, which really helped me.
